

FAQ: Preparing for Closing Day

Contact your designer with any questions not listed below.

Where is my property line?

You can find your property lines on your Plot Plan in your Design Documents from your Designer.

Can I move boxes/appliances in prior to closing?

Unfortunately we cannot allow any items to be moved in the home prior to closing due to liability reasons.

When will I get the keys and garage door openers to my home?

You will receive keys to your new home at the closing table. The garage door openers will be on top of the garage door motors in the garage.

What is the fence policy?

HOAs enforce fence policies per community. You can request the HOA contact from your Designer to have your fence plans approved prior to closing. Fences must be installed after closing.

I want to know what brand _____ is in my house.

Your included amenities can be found in your contract. Details for each selection made at your appointment can be found in your Design Selections Printout from your Designer/Appointment Paperwork. If there are any selections you cannot find, contact your Designer.

What type of paint/ colors do I have?

You can find your paint colors on your Interior Paint Plan and/or your Design Selections Printout from your design appointment. You can find the types of paint in your included amenities page in your contract.

When do I transfer my utilities?

As soon as you close on your home. We ask that you transfer all of your utilities into your name within three business days. You will receive a list of utilities at closing to transfer. You will not be able to change the utilities into your name until the Certificate of Occupancy is issued and the postal service is notified of your address.

**I want to schedule a third party home inspection.
When can I do that?**

You can schedule a third party inspection a up to a week prior to the Orientation. We will just need the report sent to the Designer no later than 48 hours prior the Orientation walk through for the Builder to have time to review it.
